

X-VISION OPTICS

KRAD Night Vision Scope

QUICK START GUIDE

- Press and hold the Power Button (8) for 2 seconds to turn the unit on or off
- Turn the Eye Diopter (7) left or right to bring the screen into focus
- Turn the Primary Focus Knob (1) left or right to bring the target into focus
- For night vision, press the  button (4). Press again to increase the infrared. There are three power levels.

TIPS & TRICKS

- Night Vision does not work through glass—glass reflects the infrared flashlight
- Make sure to turn off your scope when not in use to conserve battery life
- Power-off scope before removing the TF/microSD card

DOWNLOAD THE NIGHT VISION SCOPE APP FOR IOS AND ANDROID!

Ballistics information and zeroing parameters are all adjusted exclusively in the app.
